THE PROGRAM AND ITS PURPOSE

The Global City Indicators Program provides an established set of city indicators with a globally standardized methodology that allows for global comparability of city performance and knowledge sharing. This website serves all cities that become members to measure and report on a core set of indicators through this web-based relational database.

THE INDICATORS

The Program is structured around 22 "themes" that measure a range of city services and quality of life factors.

CITY SERVICES	QUALITY OF LIFE
Education	Civic Engagement
Energy	Culture
Recreation	Economy
Fire Emergency	Environment
Response	Shelter
Governance	Social Equity
Health	Subjective
Social Services	Well-Being
Solid Waste	Technology And
Transportation	Innovation
Urban Planning	
Waste Water	
Water	

For a more complete list of GCIP indicators please refer to the document "GCIF Indicators" in the documents page.
